STEFAN MOUOPE BOUOGNONG

UX/UI DESIGNER | FULLSTACK DEVELOPER

Yaoundé, Cameroon • 6585821355 • stefanbouognong@gmail.com
LinkedIn: stefan-mouope-3655b62bb GitHub: stefan-bouognong Portfolio: portfolio-wc3o.onrender.com

PROFESSIONAL PROFILE

UX/UI Designer and Fullstack Developer, I design visual identities and digital interfaces that are clear, consistent and user-centered, from the initial concept to final implementation. I work with visual design and prototyping tools (Figma, Canva) and pay close attention to typography, visual hierarchy and brand consistency. My combined background in web and mobile development gives me a practical understanding of production constraints and allows me to collaborate effectively with creative and technical teams. Detail-oriented, curious and open to feedback, I have built my experience through professional, academic and research projects.

PROFESSIONAL EXPERIENCE

Fullstack Developer & UX/UI Designer

Mendo Company SAS — Yaoundé, Cameroon

2026

- Designed and improved UX/UI interfaces for digital products.
- Created reusable visual components consistent with the brand identity.
- Developed and maintained modern web applications (frontend and backend).
- Contributed to the development of the Mendo Coti platform.
- Designed responsive interfaces adapted to different devices.
- Collaborated with technical and product teams.

Reference: Mr Hugues Cedric NGBWA, CEO — Mendo Company SAS

ACADEMIC EXPERIENCE

Academic Internship — Computer Science Department

University of Yaoundé 1

2025

First significant experience in designing software solutions and interfaces, supervised within the university's Computer Science Department.

Supervisor: Dr Valery Monthe

EDUCATION

University of Yaoundé 1

Master 2 in Computer Science (Research track) — *2026 – Ongoing*

Master 1 in Computer Science (Research track) — SIGL Option — *2025 – 2026*

Bachelor's Degree in Computer Science — *2025*

TECHNICAL SKILLS

Design & UX/UI	Figma, Canva, UX Design, UI Design, prototyping, design systems, responsive design, user-centered design
Frontend	React, Next.js, JavaScript, TypeScript, HTML, CSS, Tailwind CSS
Backend	Python, Django, REST APIs
Mobile	React Native
Tools	Git, GitHub, Docker
Languages	French (native) — English (basic / elementary level)

PROJECTS & ACHIEVEMENTS

Terrabia

Platform connecting farmers and restaurants.

Tools: Figma • Web development

Designed the user experience and interface, from user flows to the platform's visual identity, to facilitate exchanges between farmers and restaurants.

Skills highlighted: UX/UI design, visual identity, platform design.

Topitoh

Application for digitizing and managing patient records.

Tools: Figma • Application design

Designed a clear, intuitive interface for digitizing and managing patient records, with particular attention to readability and visual hierarchy of information.

Skills highlighted: UX/UI design, visual hierarchy, information structuring.

BloodLink

Web and mobile application dedicated to blood donation.

Tools: React Native • Next.js • Django

Designed the interface and built the fullstack solution facilitating blood donation management and matching.

Skills highlighted: Interface design, fullstack and mobile development.

KIMVIEware

Software testing platform developed in an academic and research context.

Tools: Software Testing • Research

Software testing platform developed in an academic and research setting, under the supervision of Prof. KIMBI XAVERIA.

Skills highlighted: Software development, methodological rigor, computer science research.

Full portfolio available at portfolio-wc3o.onrender.com.

SOFT SKILLS

- User-centered design
- Analytical thinking
- Problem solving
- Adaptability
- Communication
- Teamwork
- Fast learner
- Innovation mindset

AREAS OF EXPERTISE

Design

UX
UI
Visual identity
Prototyping
Design Systems

Development

Web
Mobile
Backend
Frontend
API

Software

Architecture
Git
Testing
Integration
